

PDFBreeze Upload Test

A harmless sample PDF for testing uploads, previews, text extraction, page navigation, and downloads.

Document type	Standard PDF with text and vector graphics
Page count	3 pages
Contains	Headings, paragraphs, a table, a hyperlink, and metadata
Safety	No personal, confidential, or executable content

Expected result

After uploading this file, the service should recognise it as a valid PDF, report three pages, and display the filename **pdfbreeze-upload-test.pdf**.

Content and extraction test

This page contains selectable text intended to verify that PDFBreeze can read ordinary embedded text. The quick brown fox jumps over the lazy dog. Numbers: 0123456789. Symbols: @ # % & + = / () [] .

Sample reference: PB-TEST-2026-001. If the service provides search or text extraction, searching for that exact reference should return this page.

Processing checklist

Test	Expected observation	Status marker
Upload validation	Accepted as application/pdf	PASS-CANDIDATE
Page detection	Three pages detected	PAGE-COUNT-3
Text extraction	Reference PB-TEST-2026-001 found	TEXT-OK
Preview rendering	Blue header and clean table borders	RENDER-OK
Download	Downloaded file opens without repair	DOWNLOAD-OK

Hyperlink test

This is a clickable link to <https://example.com>. It is included only to test whether links remain interactive in the PDF preview.

Visual rendering test

The blocks below are vector shapes. Their edges should remain sharp when zoomed, and all labels should remain centred inside their boxes.

BLUE	GREEN	LIGHT
Vector block 1	Vector block 2	Vector block 3

Completion marker

If this sentence is visible and the footer shows Page 3, the complete document rendered successfully.
